## **Additional Information**

ECCO is a non-profit organization. The annual training seminar is open to all federal agencies and their prime contractors involved in export control. Some non-DOE attendees in the past include: the Defense Logistics Agency, the Jet Propulsion Laboratory, Honeywell, Lockheed Martin and the Government Accountability Office.

ECCO members are nuclear weapons laboratories and science research laboratories concerned with staying in compliance with all regulatory requirements regarding exports, imports and transfers of high risk personal property.

Because of our governmental nature, ECCO is unable to pay for speakers. Our attendance is generally 50-60 attendees from all over the DOE complex.
